PREMIER PARTY CRUISES - CODING IMPLEMENTATION INSTRUCTIONS

For Replit Coding Agent / Development Team

DOCUMENT PURPOSE

This document provides complete, ready-to-use instructions for implementing the Premier Party Cruises website redesign. Give these prompts directly to your coding agent or development team.

IMPLEMENTATION PHASES

PHASE 1: Homepage Redesign (Priority 1)

PHASE 2: Bachelorette & Bachelor Pages (Priority 2)

PHASE 3: ATX Disco Cruise & Private Cruises (Priority 3)

PHASE 4: All Other Service Pages (Priority 4)

PHASE 5: Technical SEO & Optimization (Priority 5)

PHASE 1: HOMEPAGE REDESIGN

PROMPT FOR CODING AGENT:

```
TASK: Redesign the Premier Party Cruises homepage (https://premierpartycruises.com/) using the specifications below.

TECHNICAL REQUIREMENTS:
- Platform: [Your platform - WordPress/Custom/React/etc]
- Mobile-first responsive design
- Page load time target: <3 seconds
- Lighthouse score target: 90+
- Accessibility: WCAG 2.1 AA compliant

HTML STRUCTURE:
Create the following semantic HTML structure:

<header>
  <nav> [sticky navigation with CTA button]
  </nav>
```

```
</header>

<main>
  <!-- SECTION 1: HERO -->
  <section id="hero" class="hero-section">
    <div class="container">
      <div class="hero-content">
        <h1 class="headline">Austin's Most Epic Party Boat Experience on Lake Travis (Your Friends Will Thank You)</h1>
        <p class="subheadline">Join 150+ people every weekend on Austin's legendary party boat where zero planning meets unforgettable memories—DJ, photographer, giant floats, and the best vibes on Lake Travis, all included</p>
        <ul class="benefit-bullets">
          <li>✓ Zero planning stress - we handle literally every detail from music to floats to photos</li>
          <li>✓ Meet 150+ other party-goers from across the country in the most electric vibe Austin offers</li>
          <li>✓ Create stories you'll share for years - 96% of guests say it's the highlight of their weekend</li>
        </ul>
        <div class="cta-buttons">
          <button class="primary-cta">BOOK YOUR EPIC PARTY NOW</button>
          <button class="secondary-cta">Get Instant Quote (60 Seconds)</button>
        </div>
        <div class="social-proof-badge">
          <span class="rating">★★★★★ 4.9 Rating</span>
          <span class="separator">|</span>
          <span class="guests">15,000+ Happy Guests</span>
          <span class="separator">|</span>
          <span class="years">Austin's #1 Since 2009</span>
        </div>
      </div>
      <div class="hero-image">
        <img src="[hero-image.jpg]" alt="Happy guests dancing on Austin party boat cruise on Lake Travis with DJ and disco lights" loading="eager">
      </div>
    </div>
  </section>

  <!-- SECTION 2: PROOF-PROMISE-PLAN -->
  <section id="why-premier" class="proof-promise-plan">
    <div class="container">
      <h2>Why 15,000+ Austin Party-Goers Choose Premier Party Cruises</h2>

      <div class="proof-subsection">
        <h3>The Proof</h3>

    </div>

    <p class="contact-option">Or call/text us: <a href="tel:5124885892">(512) 488-5892</a></p>

    <p class="ps-text">[Copy P.S. content from PAGE_REWRITES_COMPLETE.md]</p>
  </div>
</section>
</main>

<footer>
  [Copy footer structure from PAGE_REWRITES_COMPLETE.md]
</footer>
```

CSS STYLING REQUIREMENTS:

1. COLOR SCHEME:
   - Primary CTA: #FFC107 (bright yellow/gold)
   - Secondary CTA: #1E88E5 (blue)
   - Text: #212121 (dark gray)
   - Background: #FFFFFF (white) with light blue sections (#E3F2FD)
   - Accents: Use disco/party colors (pink, purple, orange) for visual elements

2. TYPOGRAPHY:
   - Headlines: 'Poppins', sans-serif (Bold, 700 weight)
   - Body: 'Open Sans', sans-serif (Regular, 400 weight)

- Minimum sizes:
  * H1: 48px desktop, 32px mobile
  * H2: 36px desktop, 28px mobile
  * H3: 24px desktop, 20px mobile
  * Body: 18px desktop, 16px mobile
  * CTA buttons: 18px bold

3. SPACING:
- Section padding: 80px top/bottom desktop, 60px mobile
- Container max-width: 1200px
- Generous whitespace between elements
- Minimum 20px between elements on mobile

4. CTA BUTTONS:
- Primary: Bright yellow background (#FFC107), dark text, bold
- Hover effect: Slightly darker yellow with lift animation
- Size: 60px height minimum, full-width on mobile
- Border-radius: 8px
- Box-shadow for depth
- Transition: all 0.3s ease

5. HERO SECTION:
- Full viewport height or 700px minimum
- Background: Light blue gradient or white
- Image: Right side on desktop, below text on mobile
- F-pattern layout for eye flow

6. RESPONSIVE BREAKPOINTS:
- Mobile: 0-767px
- Tablet: 768-1024px
- Desktop: 1025px+
- All sections stack vertically on mobile
- Images scale appropriately

7. ANIMATIONS:
- Smooth scroll
- Fade-in on scroll for sections
- Hover effects on buttons and cards
- Loading animations should not delay content

8. ACCESSIBILITY:
- All images have descriptive alt text
- Proper heading hierarchy (H1 → H2 → H3)
- Focus states visible on all interactive elements

- Color contrast ratio 4.5:1 minimum
- Keyboard navigation fully functional

JAVASCRIPT FUNCTIONALITY:

1. Sticky Navigation:
   - Nav becomes sticky on scroll
   - CTA button always visible in nav

2. Smooth Scroll:
   - All anchor links smooth scroll
   - Offset for sticky nav

3. FAQ Accordion:
   - Click to expand/collapse
   - Only one open at a time (or multiple, your choice)
   - Smooth animation

4. Category Tabs (FAQ):
   - Switch between categories
   - Active state styling

5. Video Controls:
   - Native HTML5 video player
   - Poster image shown before play

6. Form Validation (if forms present):
   - Real-time validation
   - Clear error messages
   - Success state

7. Analytics:
   - Track button clicks
   - Track scroll depth
   - Track video plays

SEO IMPLEMENTATION:

1. META TAGS:
   Add to <head>:
```html
   <title>Austin Party Boat Cruises | Book Lake Travis Party | Premier</title>
   <meta name="description" content="Make your Austin party unforgettable! Party boat cruises on Lake Travis with DJ, photographer & more. 15+ years trusted. Book in 60 seconds!">
```

```
  <meta name="keywords" content="austin party cruises, party boat austin tx, austin party boat, lake travis party boat, premier party cruises">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <link rel="canonical" href="https://premierpartycruises.com/">

  <!-- Open Graph -->
  <meta property="og:title" content="Austin Party Boat Cruises | Premier Party Cruises">
  <meta property="og:description" content="Austin's #1 party boat experience on Lake Travis. DJ, photographer, floats included. Book now!">
  <meta property="og:image" content="[URL to hero image]">
  <meta property="og:url" content="https://premierpartycruises.com/">
  <meta property="og:type" content="website">

  <!-- Twitter -->
  <meta name="twitter:card" content="summary_large_image">
  <meta name="twitter:title" content="Austin Party Boat Cruises | Premier Party Cruises">
  <meta name="twitter:description" content="Austin's #1 party boat experience on Lake Travis">
  <meta name="twitter:image" content="[URL to hero image]">
```

2. SCHEMA MARKUP:
  Add to <head> or before </body>:
```html
  <script type="application/ld+json">
  [Copy LocalBusiness schema from PAGE_REWRITES_COMPLETE.md]
  </script>

  <script type="application/ld+json">
  {
    "@context": "https://schema.org",
    "@type": "FAQPage",
    "mainEntity": [
      {
        "@type": "Question",
        "name": "How much does an Austin party boat cruise cost?",
        "acceptedAnswer": {
          "@type": "Answer",
          "text": "[Answer text from FAQ section]"
        }
      }
      [Add all FAQ items as Question/Answer pairs]
    ]
  }
  </script>
```

```

3. STRUCTURED DATA:
   - Add itemscope/itemtype to appropriate elements
   - Use schema.org vocabulary
   - Validate with Google's Rich Results Test

PERFORMANCE OPTIMIZATION:

1. Images:
   - Compress all images (<100KB where possible)
   - Use WebP format with JPEG fallback
   - Implement lazy loading (except hero image)
   - Use responsive images with srcset
   - Example:
```html
     <img src="image.jpg"
          srcset="image-400.jpg 400w, image-800.jpg 800w, image-1200.jpg 1200w"
          sizes="(max-width: 768px) 100vw, 50vw"
          alt="[descriptive alt text]"
          loading="lazy">
```

2. CSS:
   - Minify CSS
   - Remove unused CSS
   - Critical CSS inline in <head>
   - Load non-critical CSS async

3. JavaScript:
   - Minify JS
   - Load non-critical JS async or defer
   - Use modern ES6+ syntax
   - No jQuery (unless absolutely necessary)

4. Fonts:
   - Use font-display: swap
   - Preload critical fonts
   - Host fonts locally or use Google Fonts with optimization

5. Caching:
   - Set appropriate cache headers
   - Use CDN for static assets
   - Implement service worker (if applicable)
```

ADDITIONAL FEATURES:

1. Exit-Intent Popup (optional):
   - Trigger when user moves cursor to leave page
   - Offer discount or lead magnet
   - Easy to close

2. Live Chat Widget:
   - Position: bottom right
   - Color: matches brand
   - Unobtrusive

3. Booking Widget:
   - Embed calendar/booking system
   - Should work seamlessly on mobile

4. Social Proof Notifications (optional):
   - "Sarah from Dallas just booked" style popups
   - Bottom left
   - Don't overdo it (1-2 per minute max)

TESTING CHECKLIST:

Before launch, test:
- [ ] Mobile rendering (iOS Safari, Chrome)
- [ ] Desktop rendering (Chrome, Firefox, Safari, Edge)
- [ ] All links work
- [ ] All buttons click through properly
- [ ] Forms submit correctly
- [ ] Videos play properly
- [ ] Page speed (GTmetrix, PageSpeed Insights)
- [ ] Accessibility (WAVE, Lighthouse)
- [ ] Schema validation (Google Rich Results Test)
- [ ] Analytics tracking works
- [ ] All images load
- [ ] FAQ accordion works
- [ ] Navigation sticky behavior works

DEPLOYMENT:

1. Backup existing site
2. Test on staging environment first
3. Deploy during low-traffic hours

4. Monitor for errors post-deployment
5. Submit updated sitemap to Google Search Console

END OF HOMEPAGE PROMPT.

Use this exact structure and copy all content from PAGE_REWRITES_COMPLETE.md for the full text.

PHASE 2: BACHELORETTE PARTY PAGE

PROMPT FOR CODING AGENT:

TASK: Create new Bachelorette Party page at /bachelorette-party-austin

COPY THE SAME STRUCTURE AS HOMEPAGE WITH THESE CHANGES:

1. META TAGS:
   Title: Austin Bachelorette Party Boats | Best Weekend on Lake Travis
   Description: The ultimate Austin bachelorette party! Party boat on Lake Travis with DJ, photographer & 150+ other bachelorettes. 96% say it was their favorite part. Book now!
   Keywords: austin bachelorette party, austin bachelorette weekend, bachelorette austin

2. H1 HEADLINE:
   "The Austin Bachelorette Party Experience That'll Make You the Hero (And Get You Out of Planning Hell)"

3. AUDIENCE-SPECIFIC CHANGES:
   - All copy addresses Maid of Honor / party planner directly
   - Focus on "planning stress relief"
   - Emphasize bride's happiness
   - Social proof from MOHs and brides
   - FAQs specific to bachelorette parties

4. ADDITIONAL SECTIONS TO ADD:
   - "Austin Bachelorette Weekend Itinerary" (Friday-Sunday guide)
   - "Why MOHs Love Premier" (specific benefits for planners)
   - "Which Package Is Right for Your Bach Party" (quiz or guide)

5. PACKAGE FOCUS:
   Highlight the three Disco Cruise packages:
   - Basic Bach: $85pp
   - Disco Queen: $95pp (MOST POPULAR)
   - Super Sparkle: $105pp

6. COLOR ACCENTS:

Use more pink/purple for bachelorette vibe

7. INTERNAL LINKING:
- Link to ATX Disco Cruise page
- Link to testimonials
- Link to blog post about Austin bachelorette weekends (if exists)

ALL OTHER TECHNICAL REQUIREMENTS SAME AS HOMEPAGE.

Copy full content from the 8-section framework, adapting headlines and copy for bachelorette audience.

PHASE 2: BACHELOR PARTY PAGE

PROMPT FOR CODING AGENT:

TASK: Create new Bachelor Party page at /bachelor-party-austin

COPY THE SAME STRUCTURE AS BACHELORETTE PAGE WITH THESE CHANGES:

1. META TAGS:
Title: Austin Bachelor Party Boats | Best Bachelor Party Ideas Lake Travis
Description: Epic Austin bachelor party on Lake Travis! Party boat with DJ, 150+ other bachelor parties, giant floats. Way better than bars. Book now!
Keywords: austin bachelor party, bachelor party austin, bachelor party ideas austin

2. H1 HEADLINE:
"The Austin Bachelor Party That'll Actually Be Remembered (In a Good Way)"

3. TONE CHANGES:
- More casual, less emotional than bachelorette page
- Use "dude," "bro," "insane," "legendary" language
- Less talk about "planning stress," more about "epic experience"
- Direct, no-fluff copy

4. AUDIENCE-SPECIFIC CHANGES:
- Address best man or groom directly
- Focus on "this beats bars" messaging
- Emphasize bonding and legendary stories
- Social proof from best men and grooms

5. COLOR ACCENTS:
Use more blue/orange for bachelor vibe (less pink)

ALL OTHER TECHNICAL REQUIREMENTS SAME AS BACHELORETTE PAGE.

PHASE 3: ATX DISCO CRUISE PAGE

PROMPT FOR CODING AGENT:

TASK: Redesign ATX Disco Cruise page at /atx-disco-cruise

STRUCTURE: Same 8-section framework as homepage

KEY CHANGES:

1. META TAGS:
   Title: ATX Disco Cruise | Austin's #1 Party Boat Experience | Book Now
   Description: Join Austin's legendary ATX Disco Cruise! 150+ bachelor/bachelorette parties, DJ, photographer, giant floats. 4 hours of epic fun on Lake Travis. Book now!
   Keywords: atx disco cruise, disco cruise austin, austin disco boat party

2. H1 HEADLINE:
   "Join 150+ Bachelor & Bachelorette Parties on Austin's Legendary ATX Disco Cruise"

3. UNIQUE SECTIONS:
   - "What Makes the Disco Cruise Special" (unique selling propositions)
   - "vs. Private Rental Comparison" (cost comparison table showing savings)
   - Detailed package comparison of all 3 tiers
   - Schedule & availability calendar
   - "First-Time Disco Cruiser Guide"

4. PACKAGE DEEP-DIVE:
   Create comprehensive breakdown of:
   - Basic Bach Package ($85pp) - what's included
   - Disco Queen Package ($95pp) - MOST POPULAR badge
   - Super Sparkle Package ($105pp) - premium features

   Use visual comparison table with checkmarks.

5. SCHEDULE DISPLAY:
   Clearly show:
   - Friday: Noon-4pm
   - Saturday: 11am-3pm, 3:30-7:30pm
   - Highlight selling out dates in red

6. SOCIAL PROOF:
   Focus on testimonials specifically about Disco Cruise experience
   Emphasize multi-group energy and value

ALL OTHER TECHNICAL REQUIREMENTS SAME AS HOMEPAGE.

PHASE 3: PRIVATE CRUISES PAGE

PROMPT FOR CODING AGENT:

TASK: Redesign Private Cruises page at /private-cruises

STRUCTURE: Same 8-section framework

KEY CHANGES:

1. META TAGS:
   Title: Private Party Boat Rentals Austin | Lake Travis Private Cruises
   Description: Book a private party boat on Lake Travis! Boats for 14, 25, or 50+ guests. Perfect for corporate events, birthdays, weddings. Fully customizable!
   Keywords: private party boat austin, private boat rental lake travis

2. H1 HEADLINE:
   "Private Party Boat Rentals on Lake Travis (The Whole Boat Is Yours)"

3. UNIQUE SECTIONS:
   - Boat selector tool (choose number of guests → shows recommended boat)
   - Three boat showcase (Day Tripper, Irony/Meeseeks, Clever Girl)
   - Customization options list (DJ, photographer, lily pads, etc.)
   - Use case sections:
     * Corporate Events (professional focus)
     * Birthday Parties (fun focus)
     * Wedding Events (romantic focus)
     * Family Reunions (all-ages focus)

4. MULTIPLE AUDIENCES:
   This page serves multiple buyer personas, so include:
   - Corporate-focused content section
   - Birthday party content section
   - Wedding event content section
   - Each with appropriate tone and testimonials

5. PRICING APPROACH:
   "Starting at $XXX" for each boat size
   "Get custom quote" CTA buttons
   Emphasize flexibility and customization

ALL OTHER TECHNICAL REQUIREMENTS SAME AS HOMEPAGE.

PHASE 4: ALL OTHER SERVICE PAGES

UNIVERSAL PROMPT FOR REMAINING PAGES:

TASK: Create/redesign the following service pages using the 8-section framework:

1. /team-building (Corporate/Team Building Events)
2. /client-entertainment (Corporate Client Events)
3. /company-milestone (Corporate Milestone Celebrations)
4. /rehearsal-dinner (Wedding Rehearsal Dinners)
5. /welcome-party (Wedding Welcome Parties)
6. /after-party (Wedding After Parties)
7. /milestone-birthday (30th, 40th, 50th Birthdays)
8. /sweet-16 (Sweet 16 Parties)
9. /graduation-party (Graduation Celebrations)

FOR EACH PAGE:

1. Use the same 8-section structure:
   - Hero
   - Proof-Promise-Plan
   - Value Stack
   - Social Proof
   - Cost of Inaction
   - Urgency
   - FAQ
   - Final CTA

2. Customize content for the specific demographic:
   - Professional tone for corporate pages
   - Romantic tone for wedding pages
   - Age-appropriate for birthday pages
   - Focus on specific pain points for each audience

3. Target specific keywords for each page (see SEO_AUDIT_REPORT.md)

4. Include demographic-specific FAQs (15-20 questions each)

5. Include testimonials from that specific demographic

6. Show how the service fits into larger event (e.g., rehearsal dinner as part of wedding weekend)

7. Word count target: 1,500-2,500 words each

ALL TECHNICAL REQUIREMENTS SAME AS HOMEPAGE.

Create these pages in order listed above, following the pattern established in homepage/bachelorette/bachelor examples.

PHASE 4: TESTIMONIALS & FAQ PAGE

PROMPT FOR CODING AGENT:

TASK: Redesign /testimonials-faq page as comprehensive social proof and FAQ hub

STRUCTURE:

1. REVIEWS SECTION (Top half of page):

```
<section id="reviews">
  <h1>Premier Party Cruises Reviews & Testimonials</h1>

  <div class="aggregate-rating">
    <span class="rating-value">4.9</span>
    <span class="stars">★★★★★</span>
    <span class="review-count">Based on 234+ reviews</span>
  </div>

  <div class="filter-buttons">
    <button data-filter="all" class="active">All Reviews</button>
    <button data-filter="bachelorette">Bachelorette Parties</button>
    <button data-filter="bachelor">Bachelor Parties</button>
    <button data-filter="corporate">Corporate Events</button>
    <button data-filter="birthday">Birthday Parties</button>
    <button data-filter="wedding">Wedding Events</button>
  </div>
```

```
    <div class="video-testimonials">
      [3-5 video testimonials with play buttons]
    </div>

    <div class="review-grid">
      [50+ testimonials in cards, each with:]
      - Name
      - Location
      - Star rating
      - Event type
      - Date
      - Full testimonial text
      - Photo (if available)
      [Implement schema.org/Review markup on each]
    </div>
  </section>
```

2. FAQ SECTION (Bottom half of page):

```
  <section id="comprehensive-faq">
    <h2>Complete Austin Party Boat FAQ</h2>

    <div class="faq-categories">
      <button>Booking & Pricing</button>
      <button>What to Expect</button>
      <button>Logistics & Transportation</button>
      <button>Safety & Rules</button>
      <button>Weather & Cancellations</button>
      <button>Package Comparisons</button>
      <button>Group Coordination</button>
      <button>Special Circumstances</button>
    </div>

    <div class="faq-items">
      [50+ FAQ items organized by category]
      [Each with schema.org/Question markup]
      [Expandable/collapsible design]
    </div>

    <div class="faq-search">
      <input type="text" placeholder="Search FAQs...">
      [Live search functionality]
    </div>
```

```
  </section>
```

TECHNICAL REQUIREMENTS:

1. Filterable reviews (JavaScript filtering)
2. Infinite scroll or pagination for reviews
3. Schema markup on EVERY review
4. FAQ schema on EVERY question
5. Search functionality for FAQs
6. Jump links from category buttons to FAQ sections
7. Word count target: 3,000-4,000 words

META TAGS:
Title: Reviews & FAQs | Premier Party Cruises | 4.9★ from 15,000+ Guests
Description: Read 234+ verified reviews of Premier Party Cruises. Complete FAQ answering all questions about Austin party boats on Lake Travis.
Keywords: premier party cruises reviews, austin party boat reviews, lake travis party cruise testimonials

---

PHASE 4: CONTACT PAGE

PROMPT FOR CODING AGENT:

TASK: Redesign /contact page to maximize conversion and remove friction

STRUCTURE:

```
<section id="contact-hero">
  <h1>Book Your Austin Party Boat | Contact Premier Party Cruises</h1>
  <p class="subheadline">We respond within 2 hours during business hours. Multiple ways to reach us:</p>
</section>

<section id="contact-methods">
  <div class="contact-grid">
    <div class="method phone">
      <h2>Call or Text</h2>
      <a href="tel:5124885892" class="contact-button">(512) 488-5892</a>
      <p>Available 8am-11pm (text), 8am-5pm (call)</p>
    </div>

    <div class="method email">
      <h2>Email</h2>
      <a href="mailto:clientservices@premierpartycruises.com" class="contact-
```

```
button">clientservices@premierpartycruises.com</a>
      <p>We respond within 2 hours during business hours</p>
    </div>

    <div class="method chat">
      <h2>Live Chat</h2>
      <button class="contact-button" onclick="[trigger chat widget]">Start Chat</button>
      <p>Instant answers to quick questions</p>
    </div>

    <div class="method calendar">
      <h2>Book Consultation</h2>
      <button class="contact-button">[Link to Calendly]</button>
      <p>Schedule 15-min call with our team</p>
    </div>
  </div>
</section>

<section id="contact-form">
  <h2>Or Fill Out This Quick Form</h2>

  <form>
    <input type="text" name="name" placeholder="Your Name *" required>
    <input type="email" name="email" placeholder="Email *" required>
    <input type="tel" name="phone" placeholder="Phone *" required>

    <select name="event-type" required>
      <option value="">Event Type *</option>
      <option value="bachelorette">Bachelorette Party</option>
      <option value="bachelor">Bachelor Party</option>
      <option value="private">Private Cruise</option>
      <option value="corporate">Corporate Event</option>
      <option value="birthday">Birthday Party</option>
      <option value="wedding">Wedding Event</option>
      <option value="other">Other</option>
    </select>

    <input type="date" name="date" placeholder="Preferred Date">
    <input type="number" name="guests" placeholder="Number of Guests">

    <textarea name="message" placeholder="Tell us about your party (optional)"></textarea>

    <button type="submit" class="submit-button">GET MY INSTANT QUOTE</button>
  </form>
```

```
  <p class="privacy-note">We respect your privacy. We'll never share your information.</p>
</section>

<section id="location-info">
  <h2>Where We're Located</h2>

  <div class="location-grid">
    <div class="address">
      <h3>Anderson Mill Marina</h3>
      <p>13993 FM2769<br>Leander, TX 78641</p>
      <a href="[Google Maps link]" class="directions-button">Get Directions</a>
    </div>

    <div class="map">
      [Embed Google Map]
    </div>
  </div>

  <div class="directions">
    <h3>Driving Directions from Downtown Austin</h3>
    <p>[Step-by-step directions]</p>
    <p><strong>Drive time:</strong> Approximately 30 minutes</p>
    <p><strong>Parking:</strong> Free parking available at the marina</p>
  </div>
</section>

<section id="booking-faq">
  <h2>Quick Booking FAQs</h2>

  <div class="faq-items">
    [Include 10 most common booking questions]
  </div>
</section>
```

TECHNICAL REQUIREMENTS:

1. Form validation (real-time)
2. Form submission via AJAX
3. Success message after submission
4. Error handling
5. Mobile-optimized (especially phone buttons)
6. Click-to-call buttons
7. Click-to-email buttons

8. Google Maps embed (responsive)

META TAGS:
Title: Book Your Austin Party Boat | Contact Premier | (512) 488-5892
Description: Contact Premier Party Cruises. Call (512) 488-5892, email, or fill out our quick form. We respond in 2 hours!
Keywords: premier party cruises contact, book austin party boat, lake travis party cruise booking

---

PHASE 5: TECHNICAL SEO & OPTIMIZATION

SITE-WIDE IMPROVEMENTS PROMPT:

TASK: Implement site-wide technical SEO improvements and optimizations

1. SITEMAP.XML:
   - Generate XML sitemap including all pages
   - Submit to Google Search Console
   - Include lastmod dates
   - Include priority values
   - Include changefreq

2. ROBOTS.TXT:
   - Ensure proper crawl directives
   - Link to sitemap
   - No unnecessary blocks

3. INTERNAL LINKING:
   Implement comprehensive internal linking strategy:

   Homepage links to:
   - All service pages
   - ATX Disco Cruise
   - Testimonials
   - FAQ
   - Contact

   Each service page links to:
   - Homepage
   - Related service pages
   - ATX Disco Cruise (if relevant)
   - Private Cruises (if relevant)
   - Testimonials

- Contact

Use keyword-rich anchor text:
- "Austin bachelorette party boats" (to bachelorette page)
- "ATX Disco Cruise experience" (to disco page)
- "private party boat rentals" (to private page)
- etc.

4. IMAGE OPTIMIZATION:
- Compress all images
- Convert to WebP with fallbacks
- Add descriptive file names (e.g., "austin-party-boat-lake-travis.jpg")
- Add comprehensive alt text to ALL images
- Implement lazy loading (except above-fold images)
- Use responsive images with srcset

5. PAGE SPEED:
Target metrics:
- Largest Contentful Paint: <2.5s
- First Input Delay: <100ms
- Cumulative Layout Shift: <0.1
- Overall PageSpeed score: 90+

Implement:
- Minify CSS/JS
- Enable compression (Gzip/Brotli)
- Leverage browser caching
- Use CDN for static assets
- Critical CSS inline
- Defer non-critical JS
- Optimize fonts with font-display: swap

6. MOBILE OPTIMIZATION:
- Ensure all pages pass Mobile-Friendly Test
- Touch targets 48×48px minimum
- No horizontal scrolling
- Readable font sizes (16px minimum)
- Properly sized tap targets

7. STRUCTURED DATA:
Implement schema markup on all appropriate pages:
- LocalBusiness (homepage)
- Organization (homepage)
- Event (ATX Disco Cruise)

- Product/Service (all service pages)
- Review (testimonials page)
- FAQ (all FAQ sections site-wide)
- BreadcrumbList (all pages)

8. CANONICAL TAGS:
   - Add self-referencing canonical tags to all pages
   - Ensure no duplicate content issues

9. HTTPS:
   - Ensure all pages load over HTTPS
   - Redirect HTTP to HTTPS
   - Fix mixed content warnings

10. 404 PAGE:
    Create custom 404 page with:
    - Friendly message
    - Search bar
    - Links to popular pages
    - Contact information

11. REDIRECTS:
    If any URLs changed, implement 301 redirects:
    - Old URL → New URL mapping
    - Update in .htaccess or server config

12. ANALYTICS:
    Implement tracking:
    - Google Analytics 4
    - Google Tag Manager
    - Track button clicks
    - Track form submissions
    - Track scroll depth
    - Track video plays

13. GOOGLE SEARCH CONSOLE:
    - Verify site ownership
    - Submit sitemap
    - Monitor for crawl errors
    - Monitor for manual actions
    - Check mobile usability
    - Monitor search performance

14. ACCESSIBILITY:

- WCAG 2.1 AA compliant
- Proper heading hierarchy on all pages
- Alt text on all images
- Keyboard navigation functional
- Focus indicators visible
- Color contrast 4.5:1 minimum
- Form labels properly associated
- ARIA labels where appropriate

VALIDATION:
Run these tests and fix any issues:
- Google PageSpeed Insights
- GTmetrix
- Google Mobile-Friendly Test
- Google Rich Results Test (for schema)
- WAVE Accessibility Tool
- W3C Markup Validation
- W3C CSS Validation
- Broken link checker
- SSL checker

ONGOING OPTIMIZATION PHASE

A/B TESTING PROMPT:

TASK: Set up A/B testing framework for continuous optimization

IMPLEMENT A/B TESTS FOR:

1. Headlines:
   Test variations:
   - Current transformation-focused headline
   - Question format headline
   - Shorter, punchier headline
   - Different emotional angle

2. CTA Buttons:
   Test:
   - Button text ("Book Now" vs "Reserve Spot" vs "Get Quote")
   - Button color (yellow vs orange vs green)
   - Button size (current vs larger)
   - Button position (sticky vs inline)

3. Pricing Display:
   Test:
   - Per-person vs total pricing
   - Value stack shown vs hidden
   - Highest price first vs lowest first

4. Social Proof Placement:
   Test:
   - Above fold vs below fold
   - Number of testimonials shown
   - Video vs written testimonials

USE TOOL:
Google Optimize, Optimizely, VWO, or similar

TRACKING:
- Conversion rate (primary metric)
- Bounce rate
- Time on page
- Click-through rate on CTAs
- Form completion rate

PROCESS:
1. Hypothesize which variation will perform better
2. Create variations
3. Split traffic 50/50
4. Run until statistical significance
5. Implement winner
6. Move to next test

TEST PRIORITY ORDER:
1. Hero headline (highest impact)
2. Primary CTA button text
3. Pricing display format
4. Social proof placement
5. FAQ organization

POST-LAUNCH CHECKLIST

After implementing all phases, verify:

WEEK 1 AFTER LAUNCH:

- [ ] All pages loading correctly
- [ ] No broken links
- [ ] All forms working
- [ ] All buttons clicking through properly
- [ ] Mobile rendering perfect
- [ ] Page speed targets met
- [ ] Analytics tracking working
- [ ] No JavaScript errors
- [ ] No console errors
- [ ] All images loading
- [ ] Schema validation passed
- [ ] Google Search Console no errors
- [ ] Sitemap submitted and processed

WEEK 2-4 MONITORING:

- [ ] Monitor organic traffic (should see uptick)
- [ ] Monitor conversion rate (should improve)
- [ ] Monitor keyword rankings (should improve)
- [ ] Check for crawl errors
- [ ] Review user behavior (heatmaps)
- [ ] Collect user feedback
- [ ] Monitor page speed
- [ ] Check mobile usability reports

MONTH 2-3 OPTIMIZATION:

- [ ] Analyze which pages converting best
- [ ] Identify drop-off points
- [ ] Implement improvements based on data
- [ ] Start A/B testing program
- [ ] Build backlinks to key pages
- [ ] Create content marketing strategy
- [ ] Update pages based on customer feedback

DEVELOPER NOTES

BEST PRACTICES:

1. **Code Quality:**
    - Write semantic HTML5

- Use CSS Grid and Flexbox for layouts
- Write clean, commented code
- Use consistent naming conventions
- Follow accessibility guidelines

2. **Version Control:**
   - Use Git for version control
   - Commit frequently with descriptive messages
   - Use branches for different features
   - Test on staging before production
3. **Documentation:**
   - Document code with comments
   - Create README with setup instructions
   - Document any third-party integrations
   - Note any custom functionality
4. **Testing:**
   - Test on multiple browsers
   - Test on multiple devices
   - Test all forms
   - Test all interactive elements
   - Load test if expecting high traffic
5. **Security:**
   - Sanitize all form inputs
   - Use HTTPS everywhere
   - Keep all software updated
   - Implement rate limiting on forms
   - Add CAPTCHA if spam is an issue

CONTENT MANAGEMENT

All text content for pages is provided in:

- **PAGE_REWRITES_COMPLETE.md** - Copy all content from this document

All strategic guidance is in:

- **HORMOZI_MCDOWELL_REDESIGN_STRATEGY.md** - Reference for principles and structure

All SEO requirements are in:

- **SEO_AUDIT_REPORT.md** - Reference for keywords, meta tags, technical SEO

SUPPORT & QUESTIONS

For questions about implementation:

1. Reference the three main documents
2. Follow the 8-section framework consistently
3. Maintain Hormozi/McDowell principles throughout
4. Prioritize conversion optimization over aesthetics
5. Mobile-first always

The goal: Create a website that makes prospects feel like NOT booking would be a mistake.

End of Implementation Instructions

Use these prompts sequentially, implementing Phase 1 first, then Phase 2, etc. Each phase builds on the previous one.
